EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Brooks on November 5, 2004.

The application has been amended as follows:

In claim 3, line 6 "has a color" has been deleted and -- having a color -- has been inserted.

Reasons For Allowance

The prior art of record does not disclose or fairly suggest a method and apparatus for ophthalmologic photocoagulation using a treatment laser and an aiming laser of similar colors, each with a means to monitor the beams power output so the treatment output is known when the treatment beam is supplemented by combining the aiming and treatment beams to a common optical path using a polarization coupling element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
